GUITAR CHORDS COMPASS WILL POINT YOU TO THE PERFECT CHORDS ON YOUR GUITAR

Looking for the perfect chords on your guitar? Explore hundreds of chords with Guitar Chords Compass! This app can show you all the possible chord options on its virtual guitar fretboard. Play any of them with authentic acoustic guitar sound! Learn the chords at your own pace!

We developed chord diagrams that can show you all the possible chord options in all 11 positions on the guitar fretboard. We are talking hundreds of chords! When you select a chord (a key on the left, a chord type in the middle and an addition on the right), the app will tell you how many chords are possible with this combination and will show you all the available chords. You can even create your own virtual sheet music! Go ahead, explore the chords with "Guitar Chords Compass"!

Here are some more things you can do with GuitarChordsCompass:

- Choose your preferred tuning style from 19 available (Standard, New Standard, etc. See Settings for the complete list);
- Listen to any chord you select
- You can Drag&Drop chord diagrams into editors to create your own musical pieces;
- Choose any of the 56 chord types available (such as Maj, Dim, Aug etc.);
- Adjust volume;
- Enjoy authentic guitar sound and retina graphics;

Even if you are left-handed, we got you covered with left-handed player support. And if you like GarageBand Smart instruments, you will be pleased to know that GuitarChordsCompass is compatible with them.

Try our FREE version (<http://neonway.org/guitarchordscompasslite/>) of Guitar Chords Compass Lite!

Check out our "How-To" tutorial on YouTube!

1/1 [Guitar Chords Compass - see all guitar chords!](#)

Hello and welcome to GuitarChordsCompass!

This app will show you chord diagrams with all the possible options in all 11 positions of the guitar fretboard. GuitarChordsCompass will show you the chords for all the popular tunings. Go to Settings and select your tuning option. The Standard tuning is set by default.

Now, simply select the key on the left, chord type in the middle, and, if you want, a chord type addition on the right, and explore the chords!

Now, select the position on the fretboard. This number shows that there are so many chords available. Let's try them out!

Now you do it! Have fun with the GuitarChordsCompass!
