HOW TO PLAY PIANO CHORDS!

[Listen article.](#)

Have you always wanted to learn how to play piano but felt that it would be too complicated? Have no fear, even classical musicians had to start somewhere. You can learn how to play piano chords!

120 Piano Chords has all the basic chords to play beginner piano music, as well as more advanced piano chord charts! Whether you want to learn classical piano, blues piano or synthesizers, 120 Piano Chords is a good start! You will learn about music notes and sheet music, piano chord charts and piano fingering, as well as how to create your own chord charts to accompany your favorite songs.

Our easy-to-use interface with retina support allows you to adjust the volume, choose the right-hand chords or left-hand chords. Select the chords you want to try and you can see them as piano music notes, as keyboard chords and as photos showing you the finger positions on a piano keyboard. You can play your selected chords with an acoustic piano sound, create piano chord charts for your own pieces and Drag&Drop them into your documents. Or save those chord charts in the app as Favorites, add as many sequences as you want or delete them as needed. Transpose those keyboard chords up or down to suit your singing range! Change the order of the chords in your chord chart any way you want!

120PianoChords is available now for GooglePlay, iPhone, iPad and iPod Touch!

Have fun learning piano chords and play piano today! Download 120 Piano Chords now!
And don't forget to check out our video tutorial on YouTube!

1/1 How to learn piano chord charts using "120 Pia ...

Hello and welcome to 120 Piano Chords!

This app will help you figure out the right chords for your piano pieces, show you how to find them on a piano keyboard, and will help you create your own chord sequences.

Let's start with the Settings. Here, you can choose to see the chords for the left hand or the right hand. You can also adjust the volume.

Now, let's select a chord, they key and the type of chord. You will see the pictures of what this chord looks like on music sheets, on piano keyboard, and you will also see where your fingers need to go to make this chord. Now, let's play it!

If you want to save this chord in a document, Drag & Drop it into any editing program.

You can also create chord sequences. Select a chord, then click on the plus sign. Add your next chord. Click the plus sign again. Keep going until you have your desired sequence. You can change the order of the chords, or transpose the chords to suit your singing range. Now, if you want to save this sequence, click Favorites, Save, type in a name for your sequence, done! That's it! Have fun with 120 Piano Chords!
