Are you learning to play bass guitar? Take advantage of Bass Chords Lite, a free app that can show you all major chords for bass guitar. This bass guitar learning software has adjustable volume, retina graphics and authentic bass guitar sound for every chord you play. Left-handed? No problem! Bass Chords Lite supports both right- and left-handed bass guitar players.

Select a key, and Bass Chords Lite will show you the corresponding major bass guitar chord three ways: as guitar notes, frets and as pictures of finger positions on the bass guitar fret board. Explore all the major bass guitar chords with Bass Chords Lite! If you need more bass guitar chords, including minor chords, upgrade to the full version of this app, 120 Bass Chords (<http://neonway.org/120basschords/>)!

Play any major chords with authentic bass guitar sound, learn their notes and finger positions as you go, or save them for your future bass guitar practice sessions (you can either save them in the app as Favorites or Drag&Drop them in your documents). You can also create and save chord sequences for your favorite bass guitar music pieces. Save as many chord sequences as you like, or delete the ones you don't need!
