This is an AMAZINGLY GREAT idea!!! I am a new small business owner and even newer to social media. Using my phone I found it VERY time consuming posting to all my sites. I looked into different services all web based but your I liked very much because it is a mac program.
Offered is only fb, twitter, and google+….which I have all 3. But I also flickr, tumblr, instagram, and yelp. Will these be added soon?
While I very much also like the free this is something that I would consider paying for in a second $10.00….it saves me a TON of time.
thank you and keep up the great work.
