OVER 80% OF PNG FILES CAN BE COMPRESSED!

The main purpose of the “mini PNG Lite” tool is to decrease the size of PNG images to save you a lot of space. Use this tool to compress your PNG files, so that they take up a lot less space in your apps, on your websites, in your emails, on your USB drives, etc.

“mini PNG Lite” Features:

- The strongest PNG Lossy Compression algorithm available. Over 80% of PNG data can be reduced.
- Drag & Drop PNG images and folders into the app window.
- An option to preserve the original structure of files and folders, as well as copying images, texts and other non-PNG files.
- You can preview all dropped PNG files before and after compression using the embedded viewer.
- During the compression process, the tool displays the amount of space saved, the number of files and other useful information.
- Batch conversion support.
- Compression of high resolution images.
- A special optimization path for grayscale images.
- You can change the destination for your compressed PNG files.
- After the compression is complete, the tool notifies you and displays the destination folder.
- And much more.

Displaying the amount of the space you are saving, number of files and other useful information during compression process.
