THE ICON CREATION APP WITH EMBEDDED COMPRESSOR

Just a few clicks and you are done! Drag and drop an image to the app window. Select a name for the newly created icons and choose the location where you want to save them. Click save and Quick Icons will do the rest for you!

There are no minimal or maximum resolution requirements for the image you drop in the app.

After the creation process is done, the app takes you to the icon location.

EMBEDDED COMPRESSION

Use a lot less space for your icons in the app assets, on the hard drive, and reduce the size of the app installer!

There is no need for an extra tool to compress your icons and launch images afterwards because the "Quick Icons" is the first icon creation app with its own embedded compressor. The compression can potentially save over 60% space, diminishing image quality only slightly.

CREATIVE OVERLAYS

Apply visual effects and final touches to the icons.
