### WHAT USERS SAY

- "This is a great standalone JavaScript scratchpad with a full on debugger. I have only had a quick play but it seems to work really well. The debugger allows you to step in, step over add break points etc and shows var values on break. A valuable addition to any developers tool kit." - By TheMaxPower from United Kingdom
- "This is a very nice app for learning/developing/testing Javascript code snippets and apps. What I really love about this is the debugger." - scawa from United States.
